Report of Independent Registered Public Accounting Firm

The Board of Directors
Genworth Financial Securities Corporation:

We have audited the accompanying statement of financial condition of Genworth Financial Securities Corporation (the Company) as of December 31, 2010 that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Genworth Financial Securities Corporation as of December 31, 2010 in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the statement of financial condition. The information contained in Schedule 1 is presented for purposes of additional analysis and is not a required part of the statement of financial condition, but is supplementary information required by Rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the statement of financial condition and, in our opinion, is fairly stated in all material respects in relation to the statement of financial condition.

GENWORTH FINANCIAL SECURITIES CORPORATION

Notes to Statement of Financial Condition

December 31, 2010

(Dollar amounts in thousands)

(1) Organization and Summary of Significant Accounting Policies

(a) *Organization*

Genworth Financial Securities Corporation (the Company), an Illinois corporation, was incorporated on March 31, 1981, and is registered as a broker/dealer under the Securities Exchange Act of 1934. On May 17, 2005, the Company changed its name from Terra Securities Corporation. The Company is one of two wholly owned subsidiaries of Genworth Financial Investment Services, Inc. (GFIS). GFIS is a direct wholly owned subsidiary of Genworth North America Corporation (GNA), which is a direct wholly owned subsidiary of Genworth Financial, Inc. (Genworth).

Genworth Financial Advisers Corporation (GFAC) is the other wholly owned subsidiary of GFIS. GFAC's Portfolio Advisory Services program offers four portfolio investment options for the Company's nonqualified deferred compensation plan.

The Company is an introducing broker/dealer. According to the Securities and Exchange Commission's rules and regulations, an introducing broker/dealer is a firm that receives customer securities for immediate delivery to a clearing firm. The clearing firm holds customer accounts and clears securities brokerage transactions on a fully disclosed basis.

(b) *Revenues and Expenses*

The Company sells a broad range of securities and insurance products, including mutual funds and variable annuities from several vendors, to retail customers through registered representatives. Commission income from vendors, and expenses to registered representatives, related to the sale of these products are recorded on a trade-date basis. In addition, the Company pays a management fee to GFIS for administrative services such as marketing, advertising, personnel support, and facility expenses, which are allocated to GFIS's two subsidiaries in proportion to each company's number of representatives.

The Company derives a portion of its revenues from sales of securities and insurance products issued by affiliated parties. Other income consists primarily of expense reimbursements from our sales representatives. The accompanying financial statements might not necessarily be indicative of the Company's financial condition or results of operation had the Company operated on an autonomous basis during the year ended December 31, 2010.

(c) *Cash and Cash Equivalents*

The Company considers all highly liquid investments with an original maturity of 90 days or less to be cash equivalents.

(d) *Securities Owned*

The Company holds mutual fund investments as trading securities, which are valued at fair value.

GENWORTH FINANCIAL SECURITIES CORPORATION

Notes to Statement of Financial Condition

December 31, 2010

(Dollar amounts in thousands)

(e) *Liabilities Subordinated to Claims of General Creditors*

The Company did not carry liabilities subordinated to claims of general creditors during the year ending December 31, 2010 and, therefore, has not included a statement of changes for such activities.

(f) *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts and related disclosures. Actual results may differ from those estimates. Subsequent events have been considered for disclosure through February 25, 2011 and there were no material subsequent events.

(g) *Income Taxes*

The Company currently is included in the consolidated federal income tax return of Genworth and subject to a tax-sharing arrangement that allocates tax on a separate company basis, but provides benefit for current utilization of losses and credits.

The Company is included in 23 combined/unitary state income tax returns of Genworth and files separate state income tax returns in 19 states. The Company calculates its state income tax at a rate based on its separate state return filings and its portion of the combined/unitary state return. For 2010, the Company had a blended current state income tax rate of 3.17%.

Deferred tax assets and/or liabilities are determined by multiplying the difference between the financial reporting and tax reporting bases for assets and liabilities by the enacted tax rates expected to be in effect when such differences are recovered or settled. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date. Valuation allowances on deferred tax assets are estimated based on the Company's assessment of the probability of realizing such amounts.

(h) *Deferred Compensation Payable*

Deferred compensation payable represents commissions deferred by registered representatives under a nonqualified deferred compensation plan, plus a return earned by the money market account and/or return earned by one of the four portfolios offered by GFAC's Portfolio Advisory Services program. Each of the four portfolios has different investment objectives as follows: Aggressive Growth, Growth, Growth and Income, and Income and Growth. There were no Company contributions to the deferred compensation plan in 2010.

(i) *Goodwill*

Goodwill is not amortized but is tested for impairment at least annually using a fair value approach, which requires the use of estimates and judgment. The Company recognizes an impairment charge for any amount by which the carrying amount of goodwill exceeds its fair value. The Company uses discounted cash flows to establish fair values. When a business within a reporting unit is disposed of,

GENWORTH FINANCIAL SECURITIES CORPORATION

Notes to Statement of Financial Condition

December 31, 2010

(Dollar amounts in thousands)

goodwill is allocated to the business using the relative fair value methodology to measure the gain or loss on disposal. There was no charge to operations for any impaired goodwill in 2010.

(j) *Accounting Pronouncements Not Yet Adopted*

In December 2010, the Financial Accounting Standards Board issued new accounting guidance related to goodwill impairment testing when a reporting unit's carrying value is zero or negative. This new accounting guidance will be effective on January 1, 2011 and is not expected to impact the Company's financial statements.

(2) **Securities Owned**

We have securities owned that are recorded at fair value on a recurring basis with all changes in fair value included in earnings. Securities owned represent mutual fund investments and are classified as Level 1 measurements, they are summarized below.

Bonds	\$	384
Equity		<u>697</u>
Total securities owned	\$	<u><u>1,081</u></u>

(3) **Income Taxes**

The total federal and state income tax expense for the year ended December 31, 2010 consisted of the following components:

Current federal income tax expense	\$	769
Deferred federal income tax expense		<u>609</u>
Subtotal – federal expense		<u>1,378</u>
Current state income tax expense		110
Deferred state income tax expense		<u>58</u>
Subtotal – state expense		<u>168</u>
Total federal and state income tax expense	\$	<u><u>1,546</u></u>

GENWORTH FINANCIAL SECURITIES CORPORATION

Notes to Statement of Financial Condition

December 31, 2010

(Dollar amounts in thousands)

The following reconciles the federal statutory tax rate to the reported income tax:

Expected federal income tax expense	
computed at statutory corporate tax rate	35.0%
State income tax, net of federal benefit	2.6
Other, including prior year adjustments	<u>(0.5)</u>
Total federal and state	
income tax expense	<u><u>37.1%</u></u>

The net deferred tax liability at December 31, 2010 is \$453 related to a deferred tax liability on goodwill of \$1,095 and state deferred tax liability of \$46 offset by deferred tax assets on deferred compensation of \$548, investments of \$30, a net operating loss of \$74, and other items of \$36. Based on an analysis of the Company's tax position, we believe it is more likely than not that the results of future operations will generate sufficient taxable income to enable us to realize the deferred tax assets for which we have not established valuation allowances.

As of January 1, 2010 and December 31, 2010 the Company had no unrecognized tax benefits. Accordingly, there would be no effective tax rate impact from recognition of previously unrecognized tax benefits. The December 31, 2010 statement of financial condition includes no amounts for interest or penalties related to unrecognized tax benefits, and no such amounts were recognized as components of income tax expense.

The Company files U.S. federal income tax returns (included in the Genworth consolidated returns) and various state and local income tax returns. The Company is no longer subject to U.S. federal income tax examinations for years prior to 2007 (except for potential adjustments to carry backs). Potential state and local examinations for those years are generally restricted to results that are based on closed U.S. Federal examinations. The Internal Revenue Service (IRS) is currently reviewing the U.S. income tax returns for the 2007 and the 2008 tax years. The Company was included in consolidated returns with its former parent, General Electric Company ("GE"), in 2003 and 2004. The IRS has completed its examination of these GE consolidated returns and the appropriate adjustments under the Tax Matters Agreement (TMA) and other tax sharing arrangements with GE, are still in process.

(4) Financial Instruments

The financial instruments of the Company are reported in the Statement of Financial Condition at fair value, or at carrying amounts that approximate fair values because of the short maturity of the instruments.

(5) Related-Party Transactions

During 2010, the Company incurred expenses of \$13,195, to affiliated companies for marketing, administrative, and general office support. These expenses are allocated from GFIS on a pro rata basis.

The Company earned revenue of \$1,423 for commissions from affiliate product sales and incurred expenses of \$1,217 in commissions for affiliate product sales in 2010.

GENWORTH FINANCIAL SECURITIES CORPORATION

Notes to Statement of Financial Condition

December 31, 2010

(Dollar amounts in thousands)

(6) Commitments and Contingencies

During the normal course of operating our business, the Company may be subject to litigation. It is the policy of the Company to evaluate each individual situation and vigorously defend any cases it deems without merit. The Company believes that the outcome of such litigation will not have a material effect on its financial position or results of operations.

(7) Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregated indebtedness to net capital, both as defined therein, shall not exceed 15 to 1 (and the rule also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). At December 31, 2010, the Company had net capital of \$13,770 which was \$13,420 in excess of its required minimum net capital of \$350. As of December 31, 2010, the Company's ratio of aggregate indebtedness to net capital was 0.38 to 1.

Schedule 1**GENWORTH FINANCIAL SECURITIES CORPORATION****Computation of Net Capital under
Rule 15c3-1 of the Securities and Exchange Commission****December 31, 2010****(Dollar amounts in thousands)**

Net capital:	
Total shareholder's interest	\$ 26,115
Deduction of nonallowable assets:	
Goodwill and other intangible assets	(10,691)
Commission and other receivables	(1,028)
Receivable from affiliate	(177)
Haircut on securities	(449)
Net capital	<u>13,770</u>
Total aggregate indebtedness	5,255
Computation of basic net capital requirement:	
Greater of:	
6-2/3% of total aggregate indebtedness or	350
Minimum net capital requirements of the Company	<u>50</u>
Net capital requirement	<u>350</u>
Excess net capital – net capital less net capital requirement	\$ <u>13,420</u>
Excess net capital at 1,000% – net capital less 10% of total aggregate indebtedness	\$ <u>13,245</u>
Ratio Aggregate indebtedness to net capital	0.38 to 1

Note: The above calculation does not differ from the computation of net capital under Rule 15c3-1e filed with the Financial Industry Regulatory Authority ("FINRA") as of December 31, 2010.

See accompanying report of independent registered public accounting firm.
